We are looking for design engineers to serve as judges in the 2019 LEAP Awards. The LEAP Awards celebrates the most innovative and forward-thinking products serving the design engineering space, including mechanical, fluid power and electronic categories.

Ideal candidates will be based in the United States, are currently employed in an engineering capacity at an Original Equipment Manufacturer (OEM) and have a minimum of 7 years of experience. Judges are not required to purchase/specify products associated with the categories they are judging. They cannot be employed by companies submitting applications to the LEAP Awards.

Judges will each receive a \$500 honorarium **or** WTWB will cover airfare and two nights hotel at the awards ceremony, which will be held in conjunction with DeviceTalks West and the Healthcare Robotics Engineering Forum in Santa Clara, Calif. on December 10-11. Judges also will also receive full conference access to both engineering events.

(Check which categories you feel most qualified to judge. You may check as many as applicable.)

CATEGORIES

- ★ **Design World**
 - Additive manufacturing
 - Advanced materials
 - Fastener technology
 - Industrial automation
 - Mechanical
 - Motion control
 - Software
 - Switches & sensors
- ★ **Fluid Power World**
 - Hydraulics
 - Pneumatics
- ★ **EE World**
 - Connectivity
 - Embedded computing
 - Power electronics
 - Test & measurement

Please complete this form and submit, along with your bio and a **high-resolution** headshot, to Paul J. Heney, VP, Editorial Director, at pheney@wtwhmedia.com, by July 31st.
